

News about the VGC Rendezvous 2018 in Anklam

We, the aviation club "Otto Lilienthal" Anklam e.V., are pleased to welcome you in the 170 - year anniversary of Otto Lilienthal.

We work hard to make your stay with us as comfortable as possible.

It goes without saying that we can do all the beautiful flights on our historic airfield.

But also for the accompanying family members and friends we can offer a lot.

On the edge of the Anklamer airfield is the museum-educational teaching and adventure park of the Otto-Lilienthal-Museum with a marvelous wind play park and an imaginative adventure playground - the Aeronauticon. Playing, being amazed, discovering and experimenting is very important here and, by the way, interesting facts about "flying" are provided. Why do planes get started? How heavy is air? Can trees fly? The bilingual nature and technology trail of the Aeronauticon answers these big questions. Rounding off the varied offer of the Aeronauticon by an imaginative adventure playground with wooden tower, climbing plane, giant bird and much more. For example, a half pipe.

In cooperation with the Lilienthal-Museum workshops for children and adolescents about aviation are organized.

Also model flying is possible with us.

We also offer free admission to the Lilienthal Museum and the planned Ikareum Lilienthal Flight Center.

Guided city tours are offered in Anklam.

Paddle trips and boat trips can also be made on the Peene, the Amazonas of the North.

As excursions, we recommend visiting Hangar 10 in Heringsdorf, the largest exhibition of airworthy historical warbirds in Germany.

Also worth a trip to Peenemünde, the cradle to launch into space. Wernher von Braun has worked there as the most famous rocket scientist.

Excursions to the island of Usedom with the imperial baths Ahlbeck, Heringsdorf and Bansin, and 40 km long sandy beach are also recommended. Also worth seeing is Swinoujście on the Polish side of the island with shopping on the Polish market.

We are in the process of offering other interesting highlights.
Let yourself be surprised.

If you think the time to finish it all is too short, then you have to come a few days earlier.

We look forward to welcoming you.

The crew of the aviation club
